

Jackson County Conservation Geocaching Bird Safari

*Explore Jackson County's parks this
summer!*

Using GPS, find the 12 geocaches hidden at county parks while learning about Iowa's birds! Collect the code word from each geocache to fill in the table inside this journal.

Turn in the completed journal with all 12 code words at the Hurstville Interpretive Center to receive a pathtag (pictured below).

For more information about the parks, including maps, directions and outdoor recreation opportunities, visit:
www.MyCountyParks.com/County/Jackson/Parks.aspx
